Note: This Catalogue is also available on disk
(Microsoft Word for Windows, Version 6)

This catalogue contains details of publications released by the Geological Survey of Western Australia (GSWA) prior to 1980. Those released after (and including) 1980 are listed in the regularly updated GSWA *Catalogue of Publications*. Most publications can be purchased at the *Geological Publications Counter, first floor, Mineral House, 100 Plain Street, East Perth 6004*.

All GSWA publications can be viewed in the Library, on the fifth floor of Mineral House, which is open to the public from 9.00 am to 4.30 pm on weekdays.

Some GSWA publications are available only on microfiche. The formats in which particular publications are available are listed throughout this catalogue.

Further information about GSWA publications can be obtained from the following sources.

1. The periodically updated *Catalogue of Geological Publications* contains details of publications released by the Geological Survey since 1980;
2. The *Catalogue of Geological Maps* provides a comprehensive list of maps published by the Geological Survey;
3. *GSWA Bulletin 60* provides an index of geological and mining reports produced between 1870 and 1910;
4. An index similar to that in Bulletin 60, but covering the period 1910–1970, has been published by Hesperian Press (Rear, 65 Oats Street, Carlisle, WA 6101, Ph: (08) 9362 5955; Fax: (08) 9361 2333). A copy is also available in the GSWA Library.

Over the years, publications of the Geological Survey have been distributed widely to major libraries in Australia and overseas. In particular, most of the collection is available in the libraries of the Geological Surveys of other States and the (Federal) Australian Geological Survey Organisation in Canberra.

Postal and handling charges

The prices listed in this catalogue are for counter sales at Mineral House. Those quoted for books will remain unchanged while stocks last. An additional postage and handling (p&h) charge applies for mail orders. Three levels of charge, based on weight, are indicated by subscript numbers (1, 2, and 3) attached to the listed prices. For current p&h charges (and order form), the latest *GSWA Catalogue of Geological Publications* should be consulted.

Where a publication is available on microfiche, the number of sheets involved is given in brackets. At the time of printing, the price per sheet is \$3.20; however, this charge may vary without notice.

Payment

Purchases made at the sales counter can be paid for by cheque or cash. Bankcard, Mastercard, and Visa credit card facilities are also available.

For mail orders, payment should be in Australian dollars, and cheques or money orders should be made payable to the Geological Survey of Western Australia.

Pre-payment is preferred for both counter sales and mail orders. However, corporate purchasers may be invoiced if a company purchase order is supplied.

Any further enquiries about publications and maps of the Geological Survey of Western Australia should be addressed to:

| <p>15. Preliminary report on the geological features and mineral resources of the Pilbara Goldfield
by A. G. Maitland (reprinted in Bulletin 40)
Microfiche (3) 1904</p> | <p>26. Miscellaneous Reports, Series I, Nos. 1–8:
(1) Possibility of the occurrence of artesian water in the Northampton and Geraldine districts
(2) On the country between the Ashburton and Minilya Rivers, with a view to determining the northwards extension of the Gascoyne artesian area
(3) The phosphatic deposits near Dandaragan
(4) Notes on a meteorite from the Nuleri district of Western Australia
(5) The geology of Princess Royal Harbour, with reference to the occurrence of oil
(6) Notes upon a geological map of the Greenough River district
(7) Recent advances in the knowledge of the geology of Western Australia
(8) Prevention of external corrosion of Goldfields Water Supply pipes
Microfiche (3) 1907</p> |
| <p>16. The mineral production of Western Australia up to the end of the year 1903
by A. G. Maitland and C. F. V. Jackson
Microfiche (2) 1904</p> | <p>27. Palaeontological contributions to the geology of Western Australia, II
by R. Etheridge, Jnr, F. Chapman, and W. Howchin
(1) Plant remains from the Collie Coalfield
(2) Notes on fossils from the Collie Coalfield in the collection of the National Museum, Melbourne
(3) Fossils from Mingenew, Irwin River Coalfield
(4) Descriptions of Carboniferous fossils from the Irwin River
(5) Foraminifera from a calcareous marlstone, Gingin
Microfiche (1) 1907</p> |
| <p>17. Geology and auriferous deposits of Southern Cross, Yilgarn Goldfield
by C. G. Gibson (see also Bulletin 49)
Microfiche (1) 1904</p> | <p>28. The geology and mineral resources of Lawlers, Sir Samuel, and Darlot (East Murchison Goldfield), Mt Ida (North Coolgardie Goldfield), and a portion of the Mt Margaret Goldfield
by C. G. Gibson
Microfiche (3) 1907</p> |
| <p>18. I: Geological features and auriferous deposits of Mount Morgans, Mount Margaret Goldfield
II: Notes on the geology and ore deposits of Mulgabbie, North Coolgardie Goldfield
by C. F. V. Jackson
Microfiche (2) 1905</p> | <p>29. A report upon the geology, together with a description of the productive mines of the Cue and Day Dawn Districts, Murchison Goldfield
Part I. Cue and Cuddingwarra centres
Part II. Day Dawn centre
by H. P. Woodward
Microfiche (7) 1907</p> |
| <p>19. Minerals of economic value
by E. S. Simpson
Microfiche (1) 1905</p> | <p>30. The distribution and occurrence of the baser metals in Western Australia
by E. S. Simpson and C. G. Gibson
Microfiche (2) 1907</p> |
| <p>20. Further report on the geological features and mineral resources of the Pilbara Goldfield
by A. G. Maitland (reprinted in Bulletin 40)
Microfiche (3) 1905</p> | |
| <p>21. The geology and mineral resources of the Norseman District, Dundas Goldfield
by W. D. Campbell
Microfiche (3) 1906</p> | |
| <p>22. The auriferous deposits and mines of Menzies, North Coolgardie Goldfield
by H. P. Woodward
Microfiche (3) 1906</p> | |
| <p>23. Third report on the geological features and mineral resources of the Pilbara Goldfield
by A. G. Maitland (reprinted in Bulletin 40)
Microfiche (3) 1906</p> | |
| <p>24. The Laverton, Burtville, and Erlistoun auriferous belt, Mt Margaret Goldfield
by C. G. Gibson
Microfiche (3) 1906</p> | |
| <p>25. The prospects of obtaining artesian water in the Kimberley district
by R. L. Jack
Microfiche (1) 1906</p> | |

Bulletins

 Microfiche (2) 1910</p> |
| <p>32. I: Notes on the geology of the Greenbushes Tinfield, with special reference to the deep leads
 II: A report upon the Mount Malcolm copper mine, Eulaminna, Mount Margaret Goldfield
 III: Report upon Fraser's gold mine, Southern Cross, Yilgarn Goldfield
 by H. P. Woodward
 Microfiche (3) 1908</p> | <p>37. The geological features of the country lying along the route of the proposed Transcontinental Railway in Western Australia
 by C. G. Gibson
 Microfiche (1) 1909</p> |
| <p>33. Geological investigations in the country lying between 21°30' and 25°30'S lat. and 113°30' and 118°30'E long., embracing parts of the Gascoyne, Ashburton, and West Pilbara Goldfields
 by A. G. Maitland, with petrological notes by J. A. Thomson
 Microfiche (5) 1909</p> | <p>38. The Irwin River Coalfield and the adjacent districts from Arrino to Northampton
 by W. D. Campbell (see also Bulletin 109)
 Microfiche (3) 1910</p> |
| <p>34. Report upon the auriferous deposits of Barrambie and Errols (Cue District) and Gum Creek (Nannine District) in the Murchison Goldfield; also Wiluna, in the East Murchison Goldfield
 by C. G. Gibson
 Microfiche (3) 1908</p> | <p>39. Geological observations in the country between Wiluna, Hall's Creek, and Tanami
 by H. W. B. Talbot
 Microfiche (2) 1910</p> |
| <p>35. Geological report upon the gold and copper deposits of the Phillips River Goldfield
 by H. P. Woodward, with a description of the crystalline rocks of the district by E. S. Simpson and L. Glauert
 Microfiche (4) 1909</p> | <p>40. The geological features and mineral resources of the Pilbara Goldfield
 by A. G. Maitland, with an appendix by A. Montgomery (reprint of Bulletins 15, 20, 23)
 Microfiche (11) 1908</p> |
| <p>36. Palaeontological contributions to the geology of Western Australia, III
 by G. J. Hinde, E. A. Newell Arber, R. Etheridge, and L. Glauert</p> <p>(1) On the fossil sponge spicules in a rock from the deep lead(?) at Princess Royal Township, Norseman District</p> <p>(2) Some fossil plants from Western Australia</p> <p>(3) Oolitic fossils of the Greenough River district</p> <p>(4) <i>Sthenurus occidentalis</i></p> <p>(5) A list of Western Australian fossils systematically arranged</p> <p>(6) Fossil flora of Western Australia</p> <p>(7) New fossils from the Barker Gorge, Napier Range, Kimberley</p> | <p>41. The geology and ore deposits of the West Pilbara Goldfield
 by H. P. Woodward, with petrological notes by L. Glauert
 Microfiche (3) 1911</p> |
| <p>(1) On the fossil sponge spicules in a rock from the deep lead(?) at Princess Royal Township, Norseman District</p> <p>(2) Some fossil plants from Western Australia</p> <p>(3) Oolitic fossils of the Greenough River district</p> <p>(4) <i>Sthenurus occidentalis</i></p> <p>(5) A list of Western Australian fossils systematically arranged</p> <p>(6) Fossil flora of Western Australia</p> <p>(7) New fossils from the Barker Gorge, Napier Range, Kimberley</p> | <p>42. Contributions to the study of the geology and ore deposits of Kalgoorlie, Part I
 by E. S. Simpson and C. G. Gibson (see Bulletin 51 for Part II)
 Microfiche (3) 1912</p> |
| <p>(1) On the fossil sponge spicules in a rock from the deep lead(?) at Princess Royal Township, Norseman District</p> <p>(2) Some fossil plants from Western Australia</p> <p>(3) Oolitic fossils of the Greenough River district</p> <p>(4) <i>Sthenurus occidentalis</i></p> <p>(5) A list of Western Australian fossils systematically arranged</p> <p>(6) Fossil flora of Western Australia</p> <p>(7) New fossils from the Barker Gorge, Napier Range, Kimberley</p> | <p>43. Petrological contributions to the geology of Western Australia
 by R. A. Farquharson
 Microfiche (1) 1912</p> |
| <p>(1) On the fossil sponge spicules in a rock from the deep lead(?) at Princess Royal Township, Norseman District</p> <p>(2) Some fossil plants from Western Australia</p> <p>(3) Oolitic fossils of the Greenough River district</p> <p>(4) <i>Sthenurus occidentalis</i></p> <p>(5) A list of Western Australian fossils systematically arranged</p> <p>(6) Fossil flora of Western Australia</p> <p>(7) New fossils from the Barker Gorge, Napier Range, Kimberley</p> | <p>44. A geological reconnaissance of a portion of the South-West Division of Western Australia
 by E. C. Saint-Smith
 Microfiche (2) 1912</p> |
| <p>(1) On the fossil sponge spicules in a rock from the deep lead(?) at Princess Royal Township, Norseman District</p> <p>(2) Some fossil plants from Western Australia</p> <p>(3) Oolitic fossils of the Greenough River district</p> <p>(4) <i>Sthenurus occidentalis</i></p> <p>(5) A list of Western Australian fossils systematically arranged</p> <p>(6) Fossil flora of Western Australia</p> <p>(7) New fossils from the Barker Gorge, Napier Range, Kimberley</p> | <p>45. Geological investigations in the country lying between latitude 28° and 29°45'S, and longitude 118°15' and 120°40'E, embracing parts of the North Coolgardie and East Murchison Goldfields
 by H. W. B. Talbot, with petrographical notes by R. A. Farquharson
 Microfiche (2) 1912</p> |

Bulletins

46. **A general description of the northern portion of the Yilgarn Goldfield and the southern portion of the North Coolgardie Goldfield**
by H. P. Woodward
Microfiche (1) 1912
47. **The mining geology of the Kanowna Main Reef Line, Kanowna, North-East Coolgardie Goldfield**
by T. Blatchford and J. T. Jutson, with petrological notes by R. A. Farquharson, and chemical notes by E. S. Simpson
Microfiche (2) 1912
48. **Miscellaneous Reports Series II, Nos 9–32:**
(9) Radium–uranium ores from Wodgina
(10) Guano deposits at Watheroo
(11) Preliminary notes on the mineral resources of Southern Cross
(12) The occurrence of monazite at Cooglegong and Moolyella
(13) Notes to accompany the geological sketch map of the country at the heads of the Ashburton and Gascoyne Rivers
(14) The possibility of obtaining artesian water in the vicinity of Moora
(15) The extension of the Kelmscott clay deposit
(16) Investigation into the composition and properties of combustion of coal from the Collie coalfield
(17) Limestone deposits at Pinjarra
(18) Two new meteorites from Western Australia
(19) Payne's recent gold discovery near Goodingnow, Yalgoo Goldfield
(20) A peculiar biotite (anomite) from Ubini
(21) The Nemesis gold mine, Tuckanarra, Murchison Goldfield
(22) Miscellaneous mineral notes
(23) Boring for reefs on Normanby Lease near Cue, Murchison Goldfield
(24) Boring for reefs on the Duke of York Lease near Cue, Murchison Goldfield
(25) Proposed boring for reefs at Nannine, Murchison Goldfield
(26) The Maori Lass Leases, Southern Cross, Yilgarn Goldfield
(27) Diamond drilling on the Violet Lease, Golden Valley, Yilgarn Goldfield
(28) The Kohinoor South mines, Stake Well, Murchison Goldfield
(29) Diamond drilling on the Volunteer Flat, Cue, Murchison Goldfield
(30) Geological and physiographical notes on a traverse over portions of the Darling Plateau
- (31) On the occurrence of rutile at Yulgering
(32) The Mount Jackson centre, Yilgarn Goldfield
Microfiche (4) 1912
49. **The geology and mineral resources of the Yilgarn Goldfield, Part I. Southern Cross**
by E. C. Saint-Smith and R. A. Farquharson, with chemical notes by E. S. Simpson (see Bulletin 63 for Part II)
Microfiche (3) 1913
50. **The geology and mineral industry of Western Australia**
by A. G. Maitland and A. Montgomery
Microfiche (2) 1912
51. **Contributions to the study of the geology and ore deposits of Kalgoorlie, East Coolgardie Goldfield, Part II**
by F. R. Feldtmann and R. A. Farquharson
Microfiche (5) 1913
52. **Mineral resources of the North-West Division: Investigations in 1912**
by T. Blatchford, appendix by E. D. Cleland
Microfiche (3) 1913
53. **Geological investigations in the area embracing the Burbanks and Londonderry mining centres**
by T. Blatchford, with petrographical contributions by R. A. Farquharson
Microfiche (2) 1913
54. **The mining geology of Ora Banda, Broad Arrow Goldfield**
by J. T. Jutson, with petrological contributions by R. A. Farquharson and a contribution on gold deposition by E. S. Simpson
Microfiche (3) 1914
55. **Palaeontological contributions to the geology of Western Australia, IV: The Cretaceous fossils of the Gingin 'Chalk'**
by R. Etheridge, Jr
Microfiche (1) 1913
56. **The geology of the country between Kalgoorlie and Coolgardie**
by C. S. Honman, with contributions by R. A. Farquharson and A. J. Robertson
Microfiche (2) 1914
57. **A geological reconnaissance of a portion of the Murchison Goldfield**
by H. P. Woodward
Microfiche (2) 1914

Bulletins

58. **Palaeontological contributions to the geology of Western Australia, V: Western Australian Carboniferous fossils chiefly from Mount Marmion, Lennard River, West Kimberley**
by R. Etheridge, Jr
Microfiche (1) 1914
59. **Miscellaneous reports, Series III, Nos. 33–51:**
(33) Boring for coal upon the Murchison railway line between Eradu and Mullewa
(34) Kurnalpi, North-East Coolgardie Goldfield
(35) The rare metals and their distribution in Western Australia
(36) The mining centre of Ruby Well, Peak Hill Goldfield
(37) Geological report on Mikhaburra (Holden's Find), Peak Hill Goldfield
(38) The Mount Keith district, East Murchison Goldfield
(39) Geological observations, and remarks on the present state of mining in the districts of Mount Magnet, Lennonville, and Boogardie; Murchison Goldfield
(40) Notes on the geology of Yuin, Yalgoo Goldfield
(41) The Woodline Rush, six miles north of Bulong, North-East Coolgardie Goldfield
(42) The ore occurrences of the Kapanga mine, Greenbushes Tinfield
(43) Petrographical notes on some specimens from Greenbushes
(44) The economic geology of the Golden Ridge gold mine, East Coolgardie Goldfield
(45) The Illgarere Mineral Leases and Humphry's Copper Find
(46) The Bremer Range country, Dundas Goldfield
(47) Some Western Australian meteorites
(48) Further notes on the mining geology of Kanowna
(49) On the ore occurrence at Narra Tarra mines, Victoria District
(50) The King's Sound tin mine, West Kimberley
(51) On some rocks from the Phillips River
Microfiche (7) 1914
60. **General index to reports 1870–1910**
Microfiche (2) 1916
61. **An outline of the physiographical geology (physiography) of Western Australia**
by J. T. Jutson (see also Bulletin 95)
Microfiche (3) 1914
62. **Notes on the geology and mining at Sandstone and Hancock's, East Murchison Goldfield**
by E. de C. Clarke
Microfiche (2) 1914
63. **The geology and mineral resources of the Yilgarn Goldfield, Part II. The gold belt south of Southern Cross**
by T. Blatchford, with contributions by R. A. Farquharson, E. S. Simpson, and A. J. Robertson
Microfiche (5) 1915
64. **Miscellaneous Reports, Series IV, Nos. 52–60:**
(52) The coal resources of Western Australia
(53) The mining geology of Yerilla
(54) Certain mining centres at the south of the Yalgoo Goldfield
(55) Classification of Kalgoorlie rocks
(56) On concentration tests of a tungsten-molybdenum ore from Callie Soak, Poona, Murchison Goldfield
(57) On chloritoid and its congeners, with special reference to the chloritoid at Yampi Sound
(58) The geology of Western Australia
(59) The mining fields of Western Australia
(60) Geological observations in the Mulline, Riverina and Ullaring centres, North Coolgardie Goldfield
Microfiche (4) 1915
65. **The reputed petroliferous area of the Warren River District, South-West Division**
by H. P. Woodward, with contributions by E. S. Simpson and R. A. Farquharson
Microfiche (1) 1915
66. **The geology of the country south of Kalgoorlie, including the mining centres of Golden Ridge and Feysville**
by C. S. Honman
Microfiche (3) 1916
67. **Analyses of Western Australian rocks, meteorites, and natural waters**
by E. S. Simpson
Microfiche (2) 1916
68. **The geology and ore deposits of Meekatharra, Murchison Goldfield**
by E. de C. Clarke, with contributions by R. A. Farquharson and E. S. Simpson
Microfiche (10) 1916
69. **Contributions to the study of the geology and ore deposits of Kalgoorlie, East Coolgardie Goldfield, Part III.**

Bulletins

- The North End of Kalgoorlie**
by F. R. Feldtmann
Microfiche (6) 1917
- 69A. **Contributions to the study of the geology and ore deposits of Kalgoorlie, Part IV. The geology and ore deposits of the western portion of the Boulder belt**
by F. R. Feldtmann (unpublished)
Microfiche (6) 1917
70. Reprint of Memoir 1
Microfiche (7)
71. **The geology and mineral resources of the Yilgarn Goldfield, Part III. The gold belt north of Southern Cross, including Westonia**
by T. Blatchford and C. S. Honman, with contributions by E. S. Simpson and R. A. Farquharson
Microfiche (7) 1917
72. **Palaeontological contributions to the geology of Western Australia, VI**
by F. Chapman and R. Etheridge, Jr
(11) Monograph of the Foraminifera and Ostracoda of the Gingin Chalk
(12) *Girvanella* in the Cambrian rocks of North-West Australia
Microfiche (1) 1917
73. **The geology of the North Coolgardie Goldfield, Part I. The Yerilla District**
by C. S. Honman, with appendices by R. A. Farquharson and J. T. Jutson
Microfiche (3) 1917
74. **Miscellaneous reports, Series V, Nos. 61–70:**
(61) The phosphatic deposits of Western Australia
(62) The Golden Butterfly mine, Tampa, North Coolgardie Goldfield
(63) Gold deposit at Field's Find (The Patch), Duketon, Mount Margaret Goldfield
(64) Investigation into the cause of the mineralization of the Seven Mile Swamp at Grassmere, near Albany
(65) The deep lead at Darlot, East Murchison Goldfield
(66) Reported occurrence of oil near Wonnerup, South-West Division
(67) The chemical and physical properties of some of the Donnybrook sandstones
(68) The graphite deposits at Kendenup and surrounding district, South-West Division
- (69) The geology of the Water Reserve Find at Linden, North-East Coolgardie Goldfield
(70) The clay deposits at Newlands, South-West Division
Microfiche (2) 1917
75. **A geological reconnaissance of the country between Laverton and the South Australian border, including part of the Mount Margaret Goldfield**
by H. W. B. Talbot and E. de C. Clarke, with contributions by R. A. Farquharson
Microfiche (3) 1917
76. **Interim report on the graphite deposits at Munglinup, Eucla Division**
by T. Blatchford
Microfiche (1) 1917
77. **Sources of industrial potash in Western Australia**
by E. S. Simpson with two appendices:
(1) Examination of Western Australian seaweeds for potash and iodine, by I. H. Boas
(2) Alunite deposits at Kanowna, by T. Blatchford
Microfiche (1) 1919
78. **The mining geology of Kookynie, Niagara, and Tampa, North Coolgardie Goldfield**
by J. T. Jutson, with contributions by R. A. Farquharson
Microfiche (2) 1921
79. **The mining geology of Comet Vale and Goongarrie, North Coolgardie Goldfield**
by J. T. Jutson, with contributions by E. S. Simpson and R. A. Farquharson
Microfiche (3) 1921
80. **The mining centres of Quinn's and Jasper Hill, Murchison Goldfield**
by F. R. Feldtmann
Microfiche (2) 1921
81. **The geology and mineral resources of the Yalgoo Goldfield, Part I. The Warriedar gold mining centre**
by F. R. Feldtmann, with an appendix by E. S. Simpson
Microfiche (1) 1921
82. **The magnesite deposits of Bulong, North-East Coolgardie Goldfield**
by F. R. Feldtmann
Microfiche (1) 1919

Annual Reports

The Annual Reports of the Geological Survey of Western Australia, incorporated within the Mines Department Annual Reports, were produced between 1897 and 1980. Exceptions to this are the Geological Survey Annual Reports for 1954, 1955, 1956, and 1957 which were published in the Bulletin series: nos 109, 112, 113, and 114 respectively

The Annual Report conventionally contained a review of Geological Survey activities for the previous year, those projected for the year of publication, staff movements, divisional operations, and a number of technical papers on matters of geological significance.

As of 1981, the practice of publishing a separate Annual Report for the Geological Survey (within the Mines Department Annual Report) was discontinued. Administrative details and annual programs continue to be included in the Mines Department Annual Reports, and are described in more detail in the annual 'Summary of the progress of the Geological Survey' which is published in the Record series (commencing in 1982).

Geoscientific papers of the type that were included in the Annual Reports prior to 1981 were subsequently published in the Report series as 'Professional Papers' (commencing with Professional Papers for 1982) until 1994, when they, too, were discontinued.

Some Geological Survey Annual Reports have not been available in book form for several years, and stocks of others are very low. However, all can be viewed in the Geological Survey Library in both book and microfiche form.

In 1994 the Geological Survey resurrected its annual report — called Geological Survey of Western Australia Annual Review. Copies are available free of charge.

Records

The Record series has been produced since 1962, primarily as a vehicle for the distribution of papers that required early release or were of local interest. The following list includes Records published by the Geological Survey to 1979, but excludes those that remain confidential. Some of the Records listed are available on microfiche (usually 1–3 sheets) and, at the

time of printing, a few original hard copies are also in stock. Prices are available on application.

All published Records (in hard-copy form) are retained in the GSWA Library, where they may be perused and photocopied, if required, at the current fee.
